May it please Your Honour:

We, Her Majesty's most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to Her Majesty's person and Government, and humbly

beg to present for Your Honour's acceptance a Bill intituled, "An Act for granting to Her Majesty certain sums of money for the Public Service for the fiscal years ending the 31st day of March, 1959, and the 31st day of March, 1960".

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Lieutenant-Governor doth thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name."

The Honourable the Lieutenant-Governor was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of the Legislative Assembly of Ontario:

With the conclusion of these remarks, the Fifth Session of the Twenty-fifth Legislature of Ontario will be brought to a close. It will then be a matter of history. But the decisions made and the actions authorized at this Session will have enduring value. They will operate in many ways to encourage industrial expansion, to enhance the opportunities for education and employment and to strengthen individual and family security.

As in the past, you have been confronted with numerous problems arising from the exceptionally rapid growth of this Province and the special needs that are associated with the complex age in which we live. For your conscientious devotion to the affairs of the Province, and for your industry and diligence, I thank you.

Recognizing the need for maintaining an environment which assures high levels of employment, prosperity and well-being, you have authorized the expenditure of record sums for the construction of physical assets and the expansion and improvement of Provincial services. A full program of services in support of the education, health, industry and the general betterment of our people has been implemented without the imposition of additional taxation. On the contrary, you have effected reductions in succession duties. The Corporations Act has been adjusted to make it correspond with certain revisions in the Federal law. You have also clarified the position of Provincial crown agencies by passing legislation designating them to be crown agencies and therefore exempt from Federal taxation on their purchases.

During the Session, it was announced that the Government would participate fully in the new conference to be convened on Federal-Provincial tax-sharing arrangements and the Canadian tax structure. We are confident that a just and realistic settlement of this difficult problem will be achieved. We will continue to work earnestly and vigorously for a just share of the direct tax fields and for the repeal of the Federal estate tax.

Once again, to strengthen the financial capacity and vitality of our local authorities, you have approved a substantial increase in the Province's assistance to municipalities. For the first time in history, our grants exceed $300 million. In the next fiscal year, a total of $310 million will be paid to the municipalities, school boards and other local agencies—a fifteenfold increase in the last decade and a half. During these years, an ever-larger proportion of our revenues has been channelled to local government. This speaks eloquently of our efforts to improve the standards of local services and to give relief to the local taxpayer. Not only have we expanded our assistance, particularly for education, roads and general purposes, but this year we have introduced a new grant to reimburse municipalities for their expenditures on behalf of indigent patients in hospitals. The Unconditional Grants Act and The Municipal Act have been amended to authorize these payments. The Municipal Act has also been amended to permit the wife of an owner or tenant to be elected a member of council.

The Assessment Act has been clarified and modernized while The Power Commission Act has been amended to provide for the payment of grants in lieu of taxes in municipalities in which there are Ontario Hydro generation or distribution facilities. Considerable other legislation, designed to improve administration and the sound development of our municipalities, was also approved. For example, The Municipal Franchise Extension Act was amended to provide for the making of voters' lists by assessors and by registration instead of by enumeration.

The three-year plan for the development of a new educational grants system is being implemented with marked success. This year, five improvements are being made in the grants structure to assist local education. Commencing last January 1, the approved-cost of industrial arts shops, home economics classrooms, cafeterias, gymnasiums and all-purpose rooms as well as basements used as all-purpose rooms, will be included in the cost basis for computing the grants to be paid to school boards. Grants will also be paid on the approved cost of land acquired for school purposes. In addition, the Government's grants will be based on an approved cost that has been raised to $25,000 per classroom in secondary schools. In the coming fiscal year a thorough study will be undertaken of the established concepts of approved school costs.

Higher education in Ontario will benefit from increased grants to universities. Of even greater import to individuals is the revision in our student aid system: those with high standing in Grade 13 examinations will be granted Ontario scholarships to encourage them to pursue advanced studies. At the same time the existing bursary program has been expanded and a much larger appropriation has been made for individual awards. An estimated 4,000 students will receive scholarships or bursaries, double the number assisted last year.

For the first time in history, the Province's expenditure on education will exceed the $200 million mark, while grants to local school boards have been raised to nearly $150 million, double their level just four years ago.

You voted larger sums for the operation of technological schools and schools for retarded, blind and deaf children. Once again you made a special contribution of $1 million to the Teachers' Superannuation Fund in addition to the sum which constitutes the Province's normal payment to this fund. The establishment of county or inter-municipal public libraries was facilitated. Stricter regulation of safety factors in trade schools was authorized.

You voted funds to finance the most decisive advance ever accomplished in Ontario's public health program—the Hospital Insurance Plan—which went into full operation on January 1st last. You hastened the construction of additional accommodation in all types of hospitals across the Province.

In the field of mental health, promising developments are to occur in Ontario over the next few years. You were apprised of plans to enlarge out-patient facilities and to transform treatment services within the mental hospitals, to the end that curable patients may be returned to normal life as rapidly as possible. There will be major advances in the prevention and treatment of alcoholism. The Air Pollution Control Act has been strengthened.

You authorized substantial appropriations to relieve the handicapped, the disabled, the unemployed, the aged and the unfortunate. The establishment of homes for the aged in communities in Northern Ontario was facilitated.

The report of the Select Committee on Labour Relations was presented to the Legislature. In order to expedite the work of the Labour Relations Board, you authorized the appointment of additional deputy vice-chairmen so that the Board may sit in more than two divisions.

Close attention was paid to matters of good citizenship. The Provincial Secretary has created a citizenship branch which will help new Canadians adjust themselves to Ontario's way of life. Efforts are being made to give our Indian population a larger role in the economic and social life of the Province. Indian councils are to be accorded the status of municipal councils in matters coming within the purview of The General Welfare Assistance Act. The Ontario Anti-Discrimination Commission has been established and it has embarked upon a campaign against discrimination.

Your awareness of the absolutely essential part which highways play in the economic life of the Province was never more clearly demonstrated than at this Session of the Legislature. You authorized an unprecedented expenditure for the construction and maintenance of highways and roads, both Provincial and municipal. Embodied in amendments to The Highway Improvement Act was a substantial measure of relief for traffic congestion in the rapidly developing urban centres of Ontario. You improved the system of Provincial contributions for development roads.

My Ministers propose to confer with representatives of the Western Provinces on a reciprocal trucking agreement which will ensure that Western Canada's shipping business remains in Canadian hands, via Port Arthur and Fort William.

The jobs and incomes of thousands of Ontario people are dependent upon the record-breaking, billion-dollar construction program which you implemented this year. Projects and works of every description have been undertaken by the Province and the municipalities, and their respective boards and commissions. This program not only adds to Ontario's wealth of physical capital and meets today's pressing requirements but it also constitutes the indispensable framework which will support tomorrow's prosperity.

In co-operation with the Federal and municipal governments, the Province has undertaken the construction of numerous special works designed to provide winter employment and to create useful facilities in the municipalities and the northern parts of the Province. In response to our formal request, the Federal Government has extended from April 30 to May 31 the period during which it will contribute to these projects.

In addition to providing funds for highway modernization, which itself reduces accident hazards, you authorized an intensified traffic safety campaign. The new points system, which has been in trial operation, will soon become fully operative. You amended The Highway Traffic Act in order to improve safety features, facilitate traffic flow, and ensure the reporting of traffic convictions. In addition, urbanized townships were given the right to prescribe 30-mile per hour speed zones. Speed limits throughout the Province are to be readjusted in accordance with the dictates of good traffic management and safety.

Plans for the fuller realization of Northern Ontario's bright promise received your attention. The establishment of a tidewater port at Moosonee, together with an airport, was announced. They will open a path to the vast mineral-rich territories which bound Hudson and James Bays. The construction of mining, logging and community access roads has been stepped up, while main traffic arteries are being greatly expanded and improved. A new policy which seeks a more systematic and permanent development of northern agricultural lands has been inaugurated.

You authorized the establishment of the new Department of Energy Resources, which, exclusive of Ontario Hydro, will study and deal with various phases of energy and power production and distribution in Ontario. Numbered among its responsibilities will be the establishment of standards and conditions and the supervision of safety aspects relating to natural and manufactured gas. It will give special attention to the utilization of uranium for electric power generation and for other peacetime purposes.

Agriculture income last year was at a record level, and many improvements are being made. However, to better assure the continuing growth and prosperity of this essential industry, a committee of inquiry has been set up to study and report on ways and means of promoting the production and effective marketing of Ontario's agricultural commodities in relation to changing marketing methods and consumer tastes.

Steps were taken to improve farm marketing machinery, to strengthen dairy marketing plans and to protect both buyers and sellers at community livestock sales. Through The Department of Agriculture Act, you authorized the formulation of programs to encourage any branch of agricultural activity. In order to diminish the hazards associated with farming, a comprehensive safety program has been undertaken.

Under the aegis of the Parks Integration Board, fresh advances have been made in the development of a chain of parks across the length and breadth of Ontario. It is anticipated that in this way, large park areas will be acquired and preserved in perpetuity for the enjoyment of the Ontario people and as an attraction to tourists. Authority was also given to the Province to pay municipalities one-half of the cost of acquiring and establishing parks and camp sites in rural areas.

Natural resource development and conservation continued to receive a major part of your attention. Under The Wilderness Areas Act, large tracts of virgin territory will be reserved for the use and enjoyment of the public. You have enacted legislation which assists municipalities and conservation authorities to acquire lands for reforestation. You have empowered the Government to prohibit the sale of crown lands in specified areas in order that proper programs of land use planning might be developed. Changes in The Mining Act have been approved to facilitate claim staking and development. At the same time, you have provided for the maintenance of greater safety in the operation of quarries.

Funds were voted to the Ontario Water Resources Commission for a substantial enlargement of its water-works construction and pollution abatement program. Aided by Provincial contributions, conservation authorities are carrying out flood control projects at a number of sites across the Province.

The implementation of the penal reform recommendations of the Fauteux Committee was approved. The result will be a sweeping transformation of the Provincial penal system in which the emphasis will be entirely upon rehabilitation. Certain of the responsibilities and reform institutions of the Province will be turned over to the Federal Government. In anticipation of broad changes in the methods of handling offenders, you have augmented the Provincial probation services.

A substantial increase in general welfare services was authorized. Steps were taken to improve the educational and employment opportunities for Indians. The General Welfare Assistance Act has been amended to enable the councils of Indian bands to function in the same way as the councils of municipalities in all matters relating to the several forms of assistance dealt with under the Act.

Several measures which facilitate the work of the courts have been passed. The compensation payable to witnesses and jurors has been increased. The Juvenile and Family Courts Act has been completely revised. The Supreme Court has been empowered to make such adjustments in the administration of trusts as are necessitated by changing business practices and economic conditions. Several other acts have been revised to bring them into line with modern conditions. Among these are The Reciprocal Enforcement of Maintenance Orders Act, The Charitable Gifts Act and The Insurance Act. You have modernized The Loan and Trust Corporations Act, and broadened the scope of credit unions.

Amendments to The Planning Act have been made to reinforce control over planning and building across Ontario in accordance with local conditions.

A new act, The Boundaries Act, has been passed to provide an expeditious method of fixing the boundaries of lands.

A revision of the Statutes and Regulations of Ontario has been authorized and it is expected that this revision will be completed by the end of 1960.

In order to achieve the most efficient operation within the Government service, the methods of selection and recruitment in the Civil Service have been improved and a program of in-service training and development has been authorized. A full-time secretary of the Civil Service Joint Advisory Council has been appointed to perform the administrative work of the Council and to co-ordinate that of all the departmental Councils. A Minister of the Government will also be assigned to review these matters. Appreciation is expressed to the members of the Civil Service for their industry and the faithful discharge of their responsibilities.

Thanks is expressed to the members of the Select Committee on Labour Relations who completed and delivered their Report during the past Session and to those of the various Standing Committees of the House.

The year 1959 gives promise of sound economic growth. Each passing month reveals fresh evidence of expansion. Virtually all economic barometers are rising, some rapidly. The new measures that you have enacted and the action you have authorized to be taken at this Session support this expansion. They help achieve that kind of economic climate that is so favourable to industrial expansion and the creation of new employment opportunities and that brings ever-higher living standards and security for our people.

We look forward to the visit in June of Her Majesty, Queen Elizabeth II, and Prince Philip. When Her Majesty opens the St. Lawrence Seaway, the people of Ontario will rejoice in the opportunity of again showing their loyal devotion to the Queen of Canada.

In proroguing this Session, I pray that Divine Providence may guide you and bless you.

The Provincial Secretary then said:—

Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of the Honourable the Lieutenant-Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

On Thursday, March 5th, 1959, the Honourable the Lieutenant-Governor entered the Chamber of the Legislative Assembly and, being seated upon the Throne,
